ment of Justice bas not decided upon any steps to secure the possession of Emma Goldman for the purpose of taking action against her in the federal courts.

She was arrested in Chicago on request of the Buffalo authorities and it is supposed that the government of Illinois will honor the requisition the government of New York may make for the presioner and that she will be taken to New York state.

The night consultation of the physicians furnished, in some respects, the most reassuring news yet from the sick room. An examination of the blood had been made during the day. The only answer to the requests of the local officials has been that a letter with full particuars is on the way from Buffalo. Chief O'Neill said tonight that there was no proof of any kind against Miss Goldman or any of the prisoners. WARRANT FOR MAGGIO
